9th April (12.30-2pm)

Collection and delivery will be done with strict social distancing conditions, so if you could have completed work ready for collection, that would be really helpful for our collection staff.

Please also remember that learners can access work online through the Microsoft Teams platform if you have access within the home, via a laptop, PC and internet connection.

We also have a comprehensive list of resources that your child could access. You will find links to these resources on our website.

We hope you find this a helpful service throughout Centre closure and it will ensure that you child's education is impacted as little as possible throughout.
